/ PROFILE

As an experienced front-end developer with six years of experience, I specialise in creating visually stunning, responsive and user-friendly web applications using HTML, CSS, JavaScript and ReactJS. Having recently enhanced my skills with a comprehensive course on UdeMy covering Node.js, Express, MongoDB, Jest and more, I'm well equipped to deliver quality solutions across the web development stack. My collaborative approach with cross-functional teams ensures timely and on-budget project delivery. Committed to adapting to new challenges and staying updated with evolving technologies, I am dedicated to delivering high-quality solutions across the entire web development stack.

/ WORK EXPERIENCE

>> Front-End Developer

Nembrini Consulting SA - Ticino (Switzerland) | Oct 2021 - June 2023

I was involved by Accenture in the development of the new version of the IQOS online store (www.iqos.com), which is a part of Philip Morris International:

- Building new components from scratch using HTML5, SASS, and Vanilla Javascript, adhering to the best practices in the industry.
- Maintaining legacy code and refactoring it to improve efficiency and scalability.
- Reviewing Pull requests from my team members and junior developers to ensure code quality, adherence to standards, and efficient use of resources.
- Troubleshooting coding bugs where needed.
- Optimizing web pages for maximum speed and scalability.
- Collaborate with cross-functional teams to ensure the delivery of projects that meet the needs of clients and end-users.
- Participate in agile ceremonies, such as sprint planning, daily stand-ups, and retrospectives, and provide input to the team's continuous improvement.

>> Freelance Front-End Developer

Sep 2020 - Sep 2021

Working on a variety of project: web applications, static websites, WordPress development, and optimization

- Working with clients to develop the overall look and design of a website.
- Writing website code with programming languages such as JavaScript, HTML, and CSS, SASS
- Ensuring websites are accessible across laptops and smartphones
- Fixing any website issues or bugs that arise

>> Front-End Developer

Unplugged - Cairo | Sep 2018 - Sep 2020

Working on several hybrid mobile apps using React Native + Laravel:

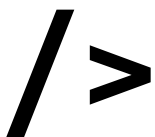

- **New Plan Developments Community App:** a hybrid mobile app built with React Native and Sass built the entire phase 1 (+80 screens), API's integration.
- **Misr Italia Community App:** a hybrid mobile app built with React Native and Sass, worked with 2 other front-end developers to build the first beta version using the agile method.

ReactJS:

- **aloula-eg:** built a single-page app using React, and Redux.
- **National Employment Pact (NEP):** built a single-page app using React.

WordPress Theme Development:

- **Akkadia / City Edge Developments:** built WordPress websites from scratch using HTML, CSS, JS, and PHP functions defined especially for use in WordPress Themes.
